Who We Are

Established in 1948 as a not-for profit organization, the American Board for Certification in Orthotics, Prosthetics and Pedorthics, Inc., commonly known as ABC, is a national certifying and accrediting body for the orthotic, prosthetic and pedorthic professions. ABC has become the quality standard in orthotic, prosthetic and pedorthic certification.

ABC certified individuals are considered leaders in the profession and provide the highest quality patient care, along with excellence in research and device design. ABC certified individuals must meet stringent educational standards, clinical training and a complete assessment of competency.

ABC conducts examinations to test the competency of those persons engaged in the practice of orthotic, prosthetic and pedorthic services, including therapeutic shoe fittings who voluntarily apply for the examination process.

MISSION AND VISION

ABC is the comprehensive credentialing organization whose mission is to establish and advocate for the highest patient care and organizational standards in the provision of safe and effective orthotic, prosthetic and pedorthic services.

ABC fulfills this mission by:

- Measuring patient care provider's knowledge and skills through rigorous credentialing programs
- Establishing standards of organizational performance through facility accreditation
- Mandating professional continuing education to maintain competency
- Administering a professional discipline program
- Communicating the value and importance of ABC credentials

ABC's activities are guided by the following vision statement:

Setting Standards, Improving Outcomes, Changing Lives

RECOGNITION

ABC certification is recognized by federal and state agencies, as well as third-party payers and is considered the standard among orthotic, prosthetic and pedorthic professionals. ABC certified practitioners are valuable members of the rehabilitation provider community.

GOVERNANCE OF ABC

The affairs of ABC are governed by the board of directors. Therefore, the board is responsible for the policies and procedures governing certification, and the board has the authority under its bylaws to modify the rules, regulations and policies, as it deems appropriate. The board is comprised of ABC credential holders and public representatives.

Certified Fitters

ABC certification of orthotic, mastectomy and therapeutic shoe fitters is awarded as attestations of competency for the public, those who require orthotic, mastectomy or therapeutic shoe fitting services and those in other health professions.

The awarding of ABC certification provides the certified fitter with an appropriate and meaningful recognition of professional competence.

PROFESSIONAL CREDENTIALS

Completion of our eligibility requirements and examinations is confirmation that you have the education, knowledge, experience and skills required of an ABC Certified Fitter. ABC awards the following fitter credentials: Certified Fitter-orthotics (CFo), Certified Fitter-mastectomy (CFm) and Certified Fitter- therapeutic shoes (CFts).

PROPRIETARY OWNERSHIP OF ABC CREDENTIALS

Certification is a privilege, not a right. The ABC Board of Directors maintains legal authority to award its certification credentials and may withhold, suspend or revoke any certification credential in accordance with the established policies, rules and regulations.

Scope of Practice

ABC credentialed individuals must adhere to the ABC Scope of Practice for their credential and/or the scope of practice for any relevant related licensure they hold.

CERTIFIED FITTER-ORTHOTICS

This includes patient evaluation, formulation of a treatment plan, implementation of the treatment plan, continuation of the treatment plan and practice management.

An ABC certified fitter-orthotics is competent to practice orthotics within a scope of practice that is specific to fitting certain prefabricated orthoses as described below:

- Cervical orthoses, *except* those used to treat an unstable cervical condition
- Prefabricated orthoses for the upper and lower extremities, *except* for the following:
 - those used in the initial and/or acute treatment of long bone fractures and dislocations
 - therapeutic (diabetic) shoes/inserts and functional electrical stimulation orthoses (e.g. myo-orthosis, neuroprosthesis)
- Prefabricated spinal orthoses, *except* those used in the treatment of scoliosis or unstable spinal conditions, or halo cervical orthoses

CERTIFIED FITTER-MASTECTOMY

According to the [Mastectomy Fitter Scope of Practice](#), an ABC certified fitter-mastectomy is a health care professional who is specifically educated and trained in the provision of breast prostheses and post-mastectomy items and services. Code of Professional Responsibility

ABC established the Professional Ethics Program to promote and maintain the highest standards of patient care and ethical behavior.

The [ABC Code of Professional Responsibility](#) is recognized throughout the profession as embodying the principles which govern the professional, ethical and moral integrity of individuals and organizations engaged in the delivery of orthotic, prosthetic and pedorthic care.

The fundamental objectives of the Professional Ethics Committee are to enforce the Code. The committee ensures that any person, facility or organization who may apply, has applied, or has been awarded any of the certifications or accreditations offered by ABC are practicing in accordance with professional and community standards. The Code and the committee serve to protect the public against unprofessional and unethical conduct by credential holders.

All ABC exam applicants and candidates must abide by the Code.

Certification Eligibility Requirements

ORTHOTIC FITTER ELIGIBILITY CRITERIA

EDUCATION REQUIREMENTS

You must have a high school diploma, GED certificate or college degree and complete an [ABC approved orthotic fitter pre-certification education course](#).

CLINICAL EXPERIENCE

There are two experience pathways for eligibility.

- **Pathway 1**—You must have 1,000 hours of orthotic fitting experience
- **Pathway 2**—You must have 500 hours of orthotic fitting experience. You may apply under this pathway if you currently hold a nationally recognized license/certification in a related allied health profession (e.g., Medical Assistant, Athletic Trainer, Physical Therapist/PTA, Occupational Therapist/ OTA).

Your experience must be in the fitting of certain orthotic devices as outlined in the [Scope of Practice](#) of an ABC Certified Fitter-orthotics.

EXPERIENCE GUIDELINES

The patient care experience requirement serves as the clinical training portion of the orthotic fitter education. It is optimal if your experience is fulfilled after completion of an ABC-approved orthotic fitter education course; however, you can use patient care experience gained prior to the completion of your education course.

The intent of the patient care experience is to provide you with practical application of the knowledge, skills and competencies gained during your educational program. This is most optimally achieved if the experience takes place within an organization that primarily provides orthotic patient care services. If your experience takes place in a setting that is not primarily engaged in orthotic patient care services, your experience will be evaluated on an individual basis to determine whether it meets the intent of the requirement.

We encourage you to use the [Orthotic Fitter Exam Candidate Self-Assessment Checklist](#) as a tool to guide you through your work experience and to make sure that you are getting the type and amount of experience in each area that the profession expects.

MASTECTOMY FITTER ELIGIBILITY CRITERIA

EDUCATION REQUIREMENTS

You must have a high school diploma, GED certificate or college degree and complete an [ABC approved mastectomy fitter pre-certification education course](#).

CLINICAL EXPERIENCE

There are two experience pathways for eligibility.

- **Pathway 1**—You must have 120 hours of mastectomy fitting experience
- **Pathway 2**—You must have 60 hours of mastectomy fitting experience. You may apply under this pathway if you currently hold a nationally recognized license/certification in a related allied health profession (e.g., RN, LPN, Medical Assistant, Certified Breast Care Nurse (BCN), Oncology Certified Nurse (OCN), Certified Breast Patient Navigator)

Your experience must be in providing direct patient care specific to fitting breast prostheses and providing other post-mastectomy items and services with these duties as a central responsibility.

EXPERIENCE GUIDELINES

The patient care experience requirement serves as the clinical training portion of the mastectomy fitter education. It is optimal if your experience is fulfilled after completion of an ABC-approved mastectomy fitter education course; however, you can use patient care experience gained prior to the completion of your education course.

The intent of the patient care experience is to provide you with practical application of the knowledge, skills and competencies gained during your education course. This is most optimally achieved if your experience takes place within an organization that primarily provides post-mastectomy patient care services.

If your experience takes place in a setting that is not primarily engaged in post-mastectomy patient care services, your experience will be evaluated on an individual basis to determine whether it meets the intent of the requirement.

We encourage you to use the [Mastectomy Fitter Exam Candidate Self-Assessment Checklist](#) as a tool to guide you through your work experience and to make sure that you are getting the type and amount of experience in each area that the profession expects.

THERAPEUTIC SHOE FITTER ELIGIBILITY CRITERIA

EDUCATION REQUIREMENTS

You must have a high school diploma, GED certificate or college degree and complete [an ABC approved therapeutic shoe fitter pre-certification education course](#).

CLINICAL EXPERIENCE

You must have 125 hours of therapeutic shoe fitting experience. This experience must be in providing direct patient care specific to non-custom therapeutic shoes and non-custom diabetic multi-density inserts.

EXPERIENCE GUIDELINES

The patient care experience requirement serves as the clinical training portion of the therapeutic shoe fitter education. It is optimal if your experience is fulfilled after completion of an ABC-approved therapeutic shoe fitter education course; however, you can use patient care experience gained prior to the completion of your education course.

The intent of the patient care experience is to provide you with practical application of the knowledge, skills and competencies gained during your education course. This is most optimally achieved if your experience takes place within an organization that primarily provides therapeutic shoe patient care services. If your experience takes place in a setting that is not primarily engaged in therapeutic shoe patient care services, your experience will be evaluated on an individual basis to determine whether it meets the intent of the requirement.

We encourage you to use the [Therapeutic Shoe Fitter Exam Candidate Self-Assessment Checklist](#) as a tool to guide you through your work experience and to make sure that you are getting the type and amount of experience in each area that the profession expects.

FOREIGN EDUCATION

If you have received your education outside the U.S., you must have your education evaluated by the [World Education Services \(WES\)](#). WES is a professional education evaluation service that confirms foreign education programs' equivalence to a high school diploma.

SCORING PROCEDURES

All scoring procedures and responses to exam questions are conducted and verified by ABC's testing service.

The passing score for the exam has been recommended by a geographically diverse panel of practicing certified fitters with both clinical and educational backgrounds individually selected by the ABC board of directors. This panel, under the guidance of testing experts from ABC's

EXAM CONTENT

The development of valid examinations begins with a practice analysis that gives a clear and concise definition of the knowledge, skills and abilities needed for safe and effective clinical practice. Subject matter experts have identified the critical aspects of the professions of orthotic, post-mastectomy and therapeutic shoe care using a process that includes interviews, surveys, observation and group discussions.

ABC conducts practice analysis studies that identify performance domains for each fitter discipline. Within each performance domain, several identified tasks provide the basis for questions in the examinations. Practice analyses also identify associated knowledge and skills.

DISCIPLINE-SPECIFIC PRACTICE ANALYSES:
